District Core Beliefs

Student Learning

* *Every student can and must learn at grade level and beyond*

High Quality Instruction

* *Teachers must demonstrate the ability and desire to educate each child at a high level.*

Leadership

* *Leaders must perform courageously and ethically to accomplish stated goals*

Safety

* *A safe learning and working environment is crucial to student learning*

Culture

* *Fresno Unified is a place where:*

- o Diversity is valued*
- o Educational excellence and equity are expected*
- o Individual responsibility and participation by all is required*
- o Collaborative adult relationships are essential*
- o Parents, students and the community as a whole are vital partners*

District Commitments

Student Learning

- * *We will provide all students access to high quality options and a variety of activities.*
- * *We will implement, continue or expand practices proven to raise student achievement; and eliminate practices that do not.*

High Quality Instruction

- * *We expect all students to achieve their personal best; differences in achievement among socio-economic and ethnic groups are not acceptable.*
- * *We expect effective teacher performance toward desired results.*

Leadership

- * *We will require the timely delivery of high quality services to every site.*
- * *We will sustain and monitor a financial plan that ensures the viability of the district.*
- * *We will provide a safe, clean, and orderly learning and working environment.*

Culture

- * *We will establish collaborative relationships with staff, parents, students, and the community.*
- * *We strongly encourage and welcome the valuable contributions of our families.*
- * *We expect and depend upon individual responsibility.*

School Facility Conditions and Improvements - Most Recent Year

The district takes great efforts to ensure that all schools are clean, safe, and functional and maintained in good repair.

• **Maintenance and Repair**

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency and health and safety repairs are given the highest priority.

• **Cleaning Process and Schedule**

The district governing board has adopted cleaning standards and schedules for all schools in the district. The principal, in conjunction with Operation's Supervision, work with and monitor the custodial staff to develop cleaning schedules and to ensure a clean and safe school.

• **Deferred Maintenance Budget**

The district performs Deferred Maintenance in conjunction with bond funding for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems among others.

• **Facilities Master Plan**

Fresno Unified School District (FUSD) has and will continue to implement major changes to improve the learning environments of our schools pursuant to the Facilities Master Plan adopted by the Board in 2009 and utilizing Measure Q bond funds approved by the voters in 2010. The Facilities Master Plan and Measure Q priorities include reducing the number of portables throughout the District and building permanent classrooms. To date, several new classroom buildings have been constructed throughout the district and close to 200+ aging portables have been or will be removed. In addition, the Plan recommended consistent district-wide feeder patterns, which have been fully implemented effective August 2014.

• **Use of Facilities Inspection Tool (FIT)**

To assist in the effort of ensuring that all schools are clean, safe, and functional effort, the district uses the Facilities Inspection Tool (FIT) developed by the State of California Office of Public School Construction (OPSC). The results of this annual inspection are outlined in the two tables below.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Subject	Percent of Students Meeting or Exceeding the State Standards

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Career Technical Education Programs (School Year 2015-16)

Fresno Unified School District is creating an aligned system of College and Career Readiness (CCR) that begins in elementary school and continues through secondary and into to our higher education partners. Fresno Unified will reshape and revitalize the role of Career Technical Education (CTE) as an engine of education reform as well as workforce and economic development for our community. CCR will emphasize career awareness, exploration and preparation; include integrated Linked Learning pathways and academies; utilize work-based learning opportunities; and focus on creating meaningful, sustainable partnerships with all stakeholders. Our focused work will provide enhanced options for ALL our students and ultimately fulfill the Fresno Unified mission of Preparing Career-Ready Graduates.

With a focus on rigorous and relevant content, experiential learning, career awareness, and demonstrated student outcomes, CTE can provide a context for academic coursework and challenging, engaging, student-centered instruction that is required for all students to succeed. CCR is both an educational strategy and the foundation of workforce development efforts. As an educational strategy, it inspires and facilitates learning and, unlike traditional vocational education, aims to prepare students for ongoing education, long-term careers, and entry into the workplace. As the foundation of workforce development, CTE in Fresno Unified responds to the needs of our local economy and provides seamless pathways that bridge all levels of education (K-Adult), enabling students to develop the skills required in the workplace while pursuing their personal, educational, and career goals

School Safety Plan - Most Recent Year

Comprehensive Safe School Plan

The Fresno Unified School District (FUSD) Comprehensive Safe School Plan (CSSP) provides guidance and direction to principals, faculty and staff who have emergency management responsibilities. The CSSP is used during all emergency incidents involving a FUSD School facility.

Safe School Plan

The Safe School Plan looks at strategies for improving school safety/climate using district/school site data and plan specific strategies to minimize problems and promote a positive learning environment for all of students on campus.

Below includes the following key elements:

Safe School Leadership Team

The safe school leadership team is led by a campus administrator (usually the principal or designee). The team consists of the Principal, the office manager, the school nurse, the School Resource Officer (if applicable), an additional certificated employee, and an additional classified employee. Each person on the team is backed up by an alternate in case they are not on campus. This team develops the Safe School Plan for their school site.

Threat Assessment Team/Student Wellness Team

This team is responsible for evaluating and mitigating threats posed by students or outside individuals. The principal, school nurse, school psychologists, and police officer are the members of this team.

First Aid Responders

Individuals who have been trained in cardiopulmonary resuscitation (CPR) and First Aid act as first responders at each campus.

Student Release Team

In the event of an emergency at each campus that requires the evacuation of students from the campus, this team reunites the students with their parent/guardian in a safe designated area.

Strategies for improving school safety/climate

Using district and school site data, the school plans specific strategies to minimize problems and to promote a positive learning environment for all of students on campus.

2016-17 Drill Schedule

Fire Drills are conducted once per month at the elementary and middle schools and three times per year at high schools. Lockdown Drills are conducted three times per year at all schools. Lockdown drills are strategically planned to ensure that drills account for a variety of situations. Both fire and lockdown drills are performed: 1. before/after school, 2. during instructional time, and 3. during lunch.

Earthquake Drills: Elementary/Middle schools are conducted once a quarter, during the school year.

High schools conduct a drill once a semester with the first drill for everyone taking place in October (during the statewide California Shakeout) and the remainder at the schools discretion during the current school year.

Coordination with First Responders

Copies of the school facilities map are provided to the Fresno Police Department, the Fresno Fire Department, and American Ambulance Emergency Medical Services.

Professional Development - Most Recent Three Years

The primary areas of focus for professional learning in Fresno Unified School District were determined by student needs and designed in support of the Common Core State Standards. Over the course of the past three years teachers have been trained in the Instructional Shifts required to support the design and delivery of lessons aligned to the Common Core State Standards. This was determined as a need based on the fact that the state standards were new for all teachers, and our data indicated that our students were in need of different experiences to be College and Career Ready.

Some of the professional learning focused on developing the capacity of groups to collaborate horizontally and vertically around utilizing student work and student data to drive decision making and planning of instruction. Assessment literacy to support the use of ongoing formative assessment as well as the expectations of the new summative assessments were a part of district led professional learning.

Delivery of district led professional learning was designed within a cycle structure targeting all grade levels and subject area teachers. The design was intended to provide an opportunity to learn, apply, and receive feedback on the new learning. Instructional coaches and administrator professional learning content was aligned to teacher professional learning so that feedback to teachers was in support of the learning sessions. All professional learning is moving toward more job embedded opportunities with the expectation that site based professional learning is aligned to district led learning.

All schools participate in 54 hours of professional learning each year as stipulated in the Collective Bargaining Agreement with the Fresno Teachers Association. In addition, some schools have been designated to have an additional 80 hours of site based professional learning where the staff is involved in identifying the content and design based on student and staff needs. Three "Buyback Days" are non-student days built in to the calendar focused on developing the capacity of teachers.

Instructional coaches are assigned throughout the district with their area of emphasis each year being determined by student need. The coaching cycle consisting of components of planning, co-teaching, and reflection have been utilized with different grade levels and content areas based on need and emphasis. In addition, all new teachers work with a coach as a part of the two year Beginning Teacher Support and Assessment induction program.
