Regarding: Fresno Unified Climate/Culture and Social-Emotional Learning Survey Results

The purpose of this communication is to provide the Board requested information on the Climate/Culture and Social-Emotional Learning (SEL) survey results administered during Spring 2019/20. Student, parent, and staff surveys were completed in early March prior to school closures. Only students in grades 4 to 12 participate in the annual survey. 37,845 students completed the Climate/Culture and SEL student survey, 24,822 parents completed the Climate/Culture parent survey, and 4,714 staff completed the Climate/Culture staff survey. Sixty-nine percent of students reported feeling there is a teacher or some other adult at school who cares about them and 45% of students believe that students at their school care about each other, while 67% of staff reported feeling that students at their school site care about each other.

To further address the climate/culture of our district, a collaborative team of Equity and Access, African American Academic Acceleration, Goal 2, Communications, Prevention and Intervention, Special Education, and English Learner Services have begun a Student Voice Collaborative across various departments and student groups. The purpose of this collaborative is to involve students' in school-related issues and concerns toward improving the climate and culture of their school. This collaborative aims to ensure representation from various student groups, create alignment in efforts, and ensure all student groups have a voice and an opportunity to be heard.

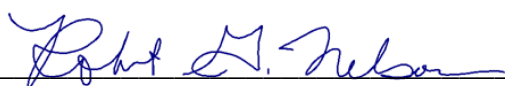

As we begin the school year through distance learning, the need to increase community building and social emotional learning (SEL) opportunities for our students is heightened. Engaging intentionally in community building and SEL helps increase connectedness, belonging, engagement, empathy, and emotional literacy skills. The Department of Prevention & Intervention Climate and Culture Office partnered with classroom teachers to develop three weeks of K-12 community building and SEL lessons for teachers to utilize to foster the environments and skills necessary for learning. The Climate & Culture Office is finalizing 180 days of community building prompts and will continue to support sites in integrating these research-based practices into the school week.

Included in the communication is an infographic with the districts overall results as well as participation rates. Please note that disproportionality represents a particular student group's representation in a specific metric (suspension, AP enrolment, etc.) that differs from the representation of all other students not identified in that particular student group. Also included are district level reports for these survey questions by region by school for elementary and secondary.

If you have further questions or require additional information, please contact Lindsay Sanders at 457-3471 or Ambra O'Connor at 457-3341.

Blank cells indicate instances when sites did not participate in the staff survey.

1 - Active employee assignments for each dept. is used as a denominator in calculating response rates. Subs and other staff not assigned to each dept may still participate in these surveys, which may account for response rates greater than 100%. Staff counts are as of 1/22/2019 for 18/19 and 1/15/2020 for 19/20.

*The results for groups with less than 11 survey respondents should be interpreted with caution.

** Differences in the results from 2019-20 and prior years should not be reviewed as "change over time", as FUSD questions for this domain were updated this year.

Blank cells indicate instances when sites did not participate in the student survey.

1 - Student enrollment (Grades 4-12) is used as a denominator in calculating response rates. Enrollment counts are as of 1/22/2019 for 18/19 and 1/15/2020 for 19/20.

Excluded from all calculations - students who submitted an opt-out form, withdrawing them from participation..

Excluded from Region and School calculations - students who transferred to another FUSD site within the survey window.

*The results for groups with less than 11 survey respondents should be interpreted with caution.

**Differences in the results from 2019-20 and prior years should not be reviewed as "change over time", as FUSD questions for this domain were updated this year.

Blank cells indicate instances when sites did not participate in the student survey.

1 - Student enrollment (Grades 4-12) is used as a denominator in calculating response rates. Enrollment counts are as of 1/22/2019 for 18/19 and 1/15/2020 for 19/20.

Excluded from all calculations - students who submitted an opt-out form, withdrawing them from participation..

Excluded from Region and School calculations - students who transferred to another FUSD site within the survey window.

*The results for groups with less than 11 survey respondents should be interpreted with caution.

**Differences in the results from 2019-20 and prior years should not be reviewed as "change over time", as FUSD questions for this domain were updated this year.

Fresno Unified School District
Board Communication

BC Number EA-2

From the Office of the Superintendent
To the Members of the Board of Education

Regarding: Climate and Culture Quarter 3 Progress Update

The Purpose of this communication is to provide the Board with information regarding climate and culture metrics for Fresno Unified during quarter 3.

The metrics included in this report are:

- Semester 1 and Quarter 3 2020/21 chronic absenteeism rates, including disproportionality among student groups.
- Year to date 2019/20 and 2020/21 chronic absenteeism rates
- Semester 1 and Quarter 3 2020/21 suspension and expulsion rates, including disproportionality among student groups.
 - Please note: The size of the student group impacts the disproportionality rate. Small changes in student groups with small population sizes can result in large changes in disproportionality rates. For example, although only one homeless youth has been suspended, there is a 11.25% disproportionality rate due to the small number of homeless students enrolled in the district.
- Year to date 2019/20 and 2020/21 student misbehaviors, suspension rates, and expulsion rates.
 - Please note that students with no disproportionality calculation had no student currently suspended for Quarter 3 in the 2020/21 academic year. Also, there are currently no expulsions for Quarter 3 in the current school year, so disproportionality was unable to be calculated.

Included in this communication is an infographic with the Climate and Culture metric results in more detail. Additionally, district-level climate and culture reports that show results for student group, region, and schools are included. Please note that in alignment with CDE, any student group or grade level with a sample size less than 11 is suppressed.

If you have further questions or require additional information, please contact Lindsay Sanders at (559) 457-3471 or Ambra O'Connor at (559) 457-3341.

Fresno Unified School District
Board Communication

BC Number EA-1

From the Office of the Superintendent
To the Members of the Board of Education
Prepared by: Kristi Imberi-Olivares, Director

Date: April 30, 2021

Phone Number: 457-3896

Cabinet Approval: Lindsay Sanders
Lindsay Sanders (Apr 29, 2021 10:55 PDT)

Regarding: Fresno Unified Spring Climate/Culture Survey Results

The purpose of this communication is to provide the Board requested information on the Climate/Culture (CC) survey results administered during Spring 2020/21. Students in grades 4 to 12 participate in the annual survey. 32,991 students completed the Climate/Culture student survey, 10,436 parents completed the Climate/Culture parent survey, and 4,483 staff completed the Climate/Culture staff survey. Fifty-five percent of students feel a sense of belonging and 54% of students report feeling connection to adults on campus. Ninety-two percent of parents report a sense of belonging while 87% of staff feel a sense of belonging.

To further address the climate/culture of our district, a collaborative team of Equity and Access, African American Academic Acceleration, Student Engagement Department, Communications, Prevention and Intervention, Special Education, and English Learner Services have continued to lead the Student Voice Collaborative across various departments and student groups. This collaborative has continued to involve students' in school-related issues and concerns toward improving the climate and culture of their school. The Student Voice Collaborative aims to ensure representation from various student groups, create alignment in efforts, and ensure all student groups have a voice and an opportunity to be heard.

Before the spring survey window, Climate and Culture Specialists reached out to site administration and Climate and Culture Teams to discuss the survey components, align to site/district goals, discuss best practices for survey administration, and craft communication plans encouraging students to share their voice via the survey. Every 2-3 days throughout the survey window, Climate and Culture Managers shared student requests for support with site administrators and identified support partners to assist students promptly. Following the survey, Climate and Culture Specialists supported site administrators and Climate and Culture Teams in analyzing survey results, planning, and implementing high leverage actions, and monitoring progress.

Also included in this communication is the district-level results from our 2020/21 spring Climate/Culture student, parent, and staff survey. Please note that the infographic includes comparisons between Fresno Unified's fall student Climate/Culture survey and the spring student Climate/Culture survey. As a reminder, the fall CC survey was only administered to students and included 10 questions focused on two areas: Adult connection and School Belonging. Also included are district level reports for these survey questions by region by school for elementary and secondary.

If you have further questions or require additional information, please contact Lindsay Sanders at 457-3471 or Ambra O'Connor at 457-3341.

Please note: Results are shown for affirmative responses. Blank cells indicate instances when sites did not participate in the staff survey.

1 - Active employee assignments for each dept. is used as a denominator in calculating response rates. Subs and other staff not assigned to each dept may still participate in these surveys, which may account for response rates greater than 100%. Staff counts are as of 1/15/2020 for 19/20 and 1/14/2021 for 20/21.

*The results for groups with less than 11 survey respondents should be interpreted with caution.

** Differences in the results from 20/21 and prior years should not be reviewed as "change over time", as items for this domain were adjusted this year.

Fresno Unified School District
Board Communication

BC Number EA-2

From the Office of the Superintendent
To the Members of the Board of Education
Prepared by: Kristi Imberi-Olivares, and Ambra O'Connor
Cabinet approval: Lindsay Sanders
Lindsay Sanders (Jun 17, 2021 11:59 PDT)

Date: June 18, 2021

Phone Number: 457-3896

Regarding: Climate and Culture Quarter 4 Progress Update

The purpose of this communication is to provide the Board information regarding climate and culture metrics for Fresno Unified during quarter 4.

The metrics included in this report are:

- Quarter 3 and Quarter 4/Semester 2 2020/21 chronic absenteeism rates, including disproportionality among student groups.
- Year to date 2019/20 and 2020/21 chronic absenteeism rates
- Quarter 3 and Quarter 4/Semester 2 suspension and expulsion rates, including disproportionality among student groups.
 - Please note: The size of the student group impacts the disproportionality rate. Small changes in student groups with small population sizes can result in large changes in disproportionality rates. For example, although only one homeless youth has been suspended, there is a 11.25% disproportionality rate due to the small number of homeless students enrolled in the district.
- Year to date 2019/20 and 2020/21 student misbehaviors, suspension rates, and expulsion rates.
 - Please note that students with no disproportionality calculation had no students suspended for Quarter 4 in the 2020/21 academic year. Also, there are currently no expulsions for Quarter 4 of the 2020/21 academic year, so disproportionality was unable to be calculated.

Included in this communication is an infographic with the Climate and Culture metric results in more detail. Additionally, district-level climate and culture reports that show results for student group, region, and schools are included. Please note that in alignment with CDE, any student group or grade level with a sample size less than 11 is suppressed.

If you have further questions or require additional information, please contact Lindsay Sanders at 457-3471 or Ambra O'Connor at 457-3341.

- Economically Disadvantaged (15,345)
- English Learners (2,606)
- Foster Youth (194)
- Homeless (167)
- Students With Disabilities (2,660)

Students LESS likely to be Chronically Absent

Students MORE likely to be Chronically Absent

Due to the differing attendance calculations and reporting methodologies, alternative education (Cambridge, DeWolf, JE Young, and Phoenix Secondary) is not included in the chronic absenteeism metrics. Any student group with a sample size less than 11 is not reported out on in alignment with CDE. 2019-20 YTD data is up until the end of Q3 due to school closure before the beginning of Q4.

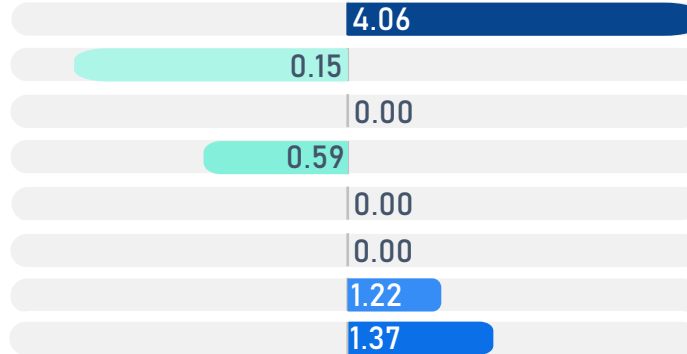

Suspensions

Disproportionality of Students by Race/Ethnicity

Students LESS likely to be Suspended

Students MORE likely to be Suspended

- African American/Black (33)
- Asian (N/A)

Students MORE likely to be Suspended

- Economically Disadvantaged (114)
- English Learners (18)
- Foster Youth (N/A)
- Homeless (N/A)
- Students With Disabilities (40)

Student groups with no disproportionality calculation had no students currently suspended for the 2020-21 academic year. Any student group with a sample size less than 11 is not reported out on in alignment with CDE. 2019-20 YTD data is up until the end of Q3 due to school closure before the beginning of Q4.

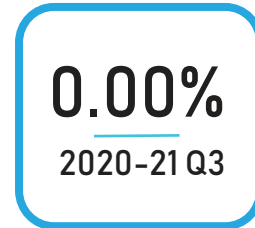

Expulsions

Expulsion Rate

19/20 to 20/21
Comparison

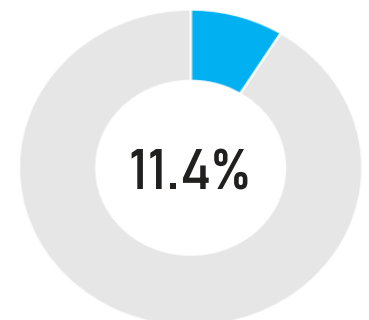

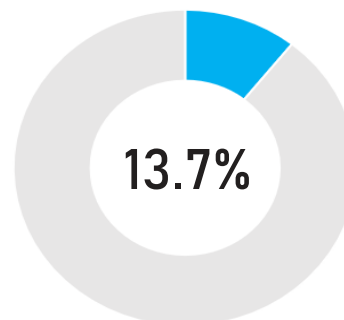

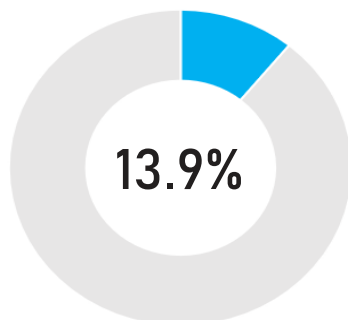

20/21 Q3 to Q4
Comparison

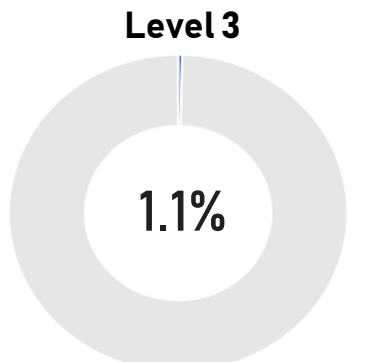

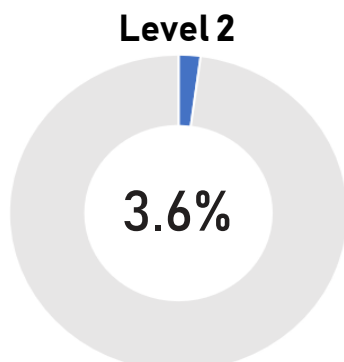

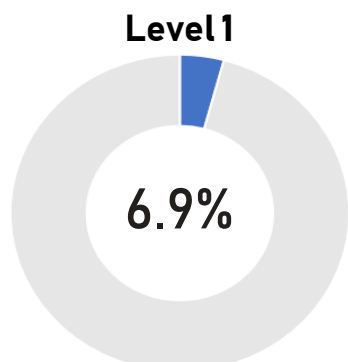

As we currently have no expulsions for the 2020-21 academic year, we are not able to calculate any disproportionality rates. 2019-20 YTD data is up until the end of Q3 due to school closure before the beginning of Q4.

Misbehaviors by Level

Level 1
Low level behavior, addressed by teacher.

Level 2
Repeated low level behaviors, office notification.

Level 3
Serious behavior requiring Office Discipline Referral.

2019-20 YTD data is up until the end of Q3 due to school closure before the beginning of Q4.
